

Product Guide

FLEXOTEK Inc.

Terms and Conditions

Minimum Charge

\$100.00 minimum purchase per order.

Terms

2% Cash Discount, 10th proximo. Net 30 days, upon credit approval.
Cash Discount does not apply to freight charges.

Payment

C.O.D. charges must be paid in cash or certified check. Plus freight charge.

Sales Tax Exemption Certificate

Sales tax need not be added if we have your Sales Tax Exemption Certificate on file.
A Sales Tax Exemption Certificate need only be attached to your initial order.

Freight

Full freight allowed on shipments.
Invoiced at \$1,200.00 within the continental United States.
All prepaid shipments will be routed by Flexotek.

Pricing

Pricing in this catalogue are in effect as of the date on the catalogue. If you order any item with a forced price rise, we will notify you before shipping to allow you to cancel for a full refund, or to tell us to ship the merchandise. Orders shall be invoiced at prices in effect at time of shipment.

Prices are subject to change at our discretion without prior notice.

Terms and Conditions

Returns

Returned goods authorization must be obtained prior to returning any merchandise. A letter requesting return authorization must be submitted within 7 business days of your receipt goods.

This letter should include the date of your original order and the reason return is requested.

DO NOT return merchandise without authorization, as shipments that do not show our return goods authorization number will be refused.

Returns are subject to a 25% restocking charge.

Claims

In those very rare instances when a package is lost or an item is damaged in transit, we assume full responsibility for filing claims.

Just notify the carrier by mail and send us the delivery receipt explaining what was lost or damaged.

These must be done within 7 days of the receipt of merchandise.

YOU HAVE NO PAPER WORK OR INCONVENIENCE.

Back Orders

All back orders will be shipped unless otherwise notified by customer.

Warranty

All Flexotek products if properly used are guaranteed against mechanical, electrical and physical defects for one year after receipt of goods.

No other express warranties or guarantees are intended or implied and are expressly disclaimed.

Our obligation under this guarantee shall be limited to furnishing new replacement material in exchange for damaged material inspected by us and found to be defective in material or workmanship.

Any other direct or consequential costs are expressly excluded.

\$75.00 SERVICE CHARGE APPLIES ON ALL RETURNED CHECKS.

POLYPROPYLENE CONDUIT BLOW LINE

ITEM CODE	TRADE SIZE	INNER CASE	MASTER CASE
CBL6500	6500FT	-	1

**Size
#650**

**Color
White/Blue**

**Weight lbs.
8.00**

**Breaking Strength lbs.
210lbs.**

Technical Information:

Material: Polypropylene Monofilament

Specific Gravity: 0.91 (Floats)

Stretch Elongation at Breaking Point: 18 to 22%

Elastic Recovery: 98% at 5%, 95% at 10%

Moisture Absorbency: Negligible

Effect of Heat: 50% Tensile at 200° F. Melts at 320°

Effect Of Acids: Good resistance except with oxidizing agents.

Effect of Alkalis: Good resistance

Effect of Organic Solvents: Insoluble in most except chlorinated hydrocarbons.

Effect of Sunlight: Good resistance to indirect sunlight

Effect of Age: Negligible

Resistance to Mildew: Not attacked

Abrasion Resistance: Good resistance

Identification: Floats. Melts before burning. Forms hard bead. Burning asphalt odor.

Key Features:

- Smaller format bucket takes up less room in your truck
- Good knotting capabilities

"America's Electricity Runs On Flexotek"

Round Pancake Boxes

Features

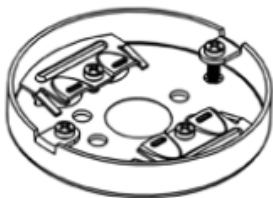

- Pancake box-fixture ready, galvanized steel raised 1/2" and 3/4"

Applications

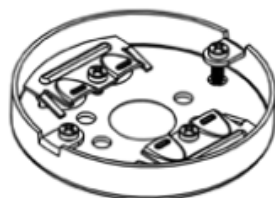

- Flexotek pancake ceiling box can be used to install ceiling fans, lighting fixtures and other electrical devices

Standard Material

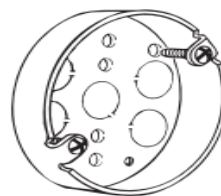

- Galvanized steel

3-1/2" Octagon Drawn Box 1-1/2" Deep

Features

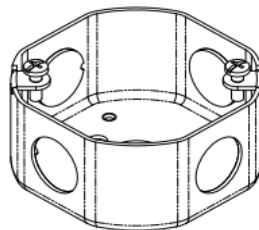

- Drawn
- 1-1/2" deep
- 11.8 cubic inches
- Available in multiple KO sizes, with or without concentric KOs and raised ground emboss with installed 10/32 ground screw where noted

Applications

- 3-1/2" octagon junction boxes are used to install ceiling and wall lighting fixtures, fans or convenience outlets and devices
- Octagon boxes are used to bring power to an electrical device where multiple conductor runs are split in two or more directions

Standard Material

- Galvanized steel

4" Octagon Drawn Deep Boxes & Covers

2-1/8" Deep

Features

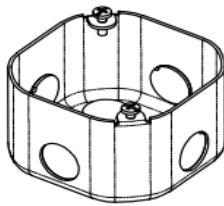

- Boxes – Drawn
- Boxes – 2-1/8" deep
- Boxes – 21.5 cubic inch extra cubic capacity
- Available in multiple KO sizes, with or without concentric KOs and raised ground emboss with installed 10/32 ground screw where noted

Applications

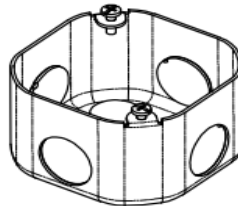

- 4" octagon junction boxes are used to install ceiling and wall lighting fixtures, fans or convenience outlets and devices
- Octagon boxes are used to bring power to an electrical device where multiple conductor runs are split in two or more directions
- 4" octagon blank flat covers are used to cover 4" octagon box wiring and provide a means for access when future conduit runs are required

4" Square Welded Deep Boxes

2-1/8" Deep

Features

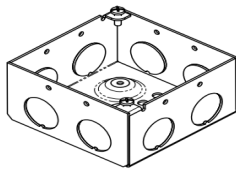

- Welded
- 2-1/8" deep offer extra cubic capacity
- Available in multiple eccentric & concentric KO sizes with MC clamps, raised ground emboss with 10/32 ground screw and pigtail where noted

Applications

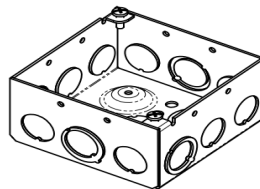

- 4" square welded junction boxes can be installed in walls or ceilings for lighting fixtures, switches, receptacles or other outlet devices
- Square boxes are used to bring power to a number of electrical devices where multiple conductor runs are split in two or more directions

Standard Material

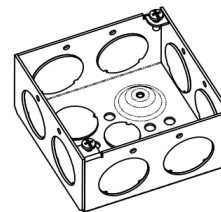

- Galvanized steel

4" Square Welded Boxes 2-1/8" Deep with Metal Stud Bracket

Features

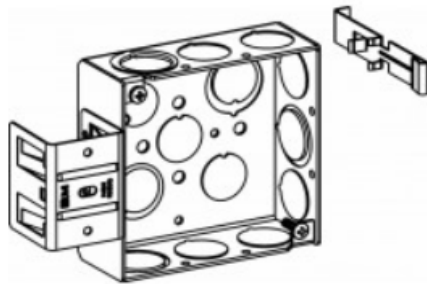

- Welded
- Metal stud bracket
- 2-1/8" deep boxes offer extra cubic capacity
- Available with MCI clamp

Applications

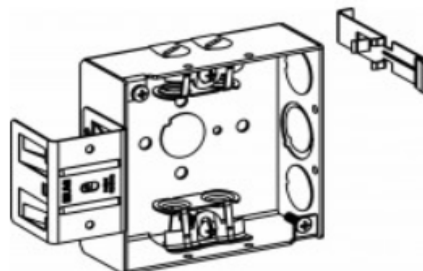

- Built in metal stud bracket allows 4" square box to mount directly to a metal stud
- Square boxes are used to bring power to a number of electrical devices where multiple conductor runs are split in two or more directions

Standard Material

- Galvanized steel

4-11/16" Square Welded Boxes 2-1/8" Deep

Features

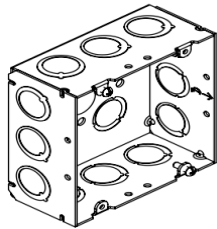

- Welded
- 2-1/8" deep
- Available in multiple KO sizes, with eccentric or concentric KOs, raised ground emboss with installed 10/32 ground screw and pigtail where noted

Applications

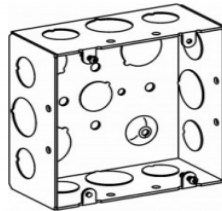

- 4-11/16" square welded junction boxes are used in a variety of industrial applications where larger sized conductors or wiring devices are needed and more volume is required
- Can be installed in walls or ceilings for lighting fixtures, switches, receptacles or other outlet devices. 2-1/8" deep boxes offer extra cubic capacity

Standard Material

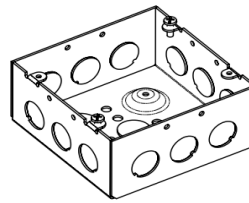

- Galvanized steel

3" x 2" Gangable Switch Boxes 1-1/2" Deep

Features

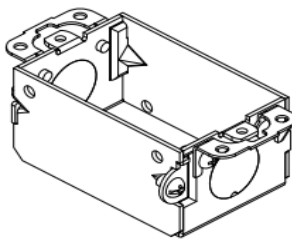

- Boxes – 1-1/2" deep
- Boxes – 7.5 cubic inches
- Available with adjustable plaster ears, NM clamps and MC clamps where noted

Applications

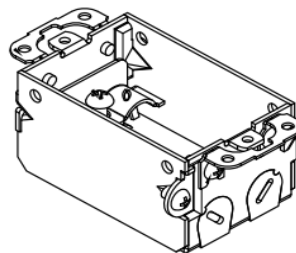

- 3"x 2" Switch boxes can be installed in walls or ceilings for lighting fixtures, switches, receptacles or other outlet devices
- Switch boxes are used to bring power to a number of electrical devices where multiple conductor runs are split in two or more directions
- The adjustable plaster ears allow for an easy "cut in" when switches or outlets need to be added

4" x 2" Drawn Handy Boxes and Extension 1-7/8" Deep

Features

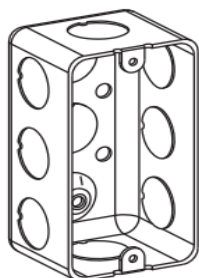

- Boxes – Drawn
- Boxes – 1-7/8" deep
- Boxes – 13.0 cubic inches
- Available in multiple KO sizes, with or without concentric KOs and raised ground emboss with installed 10/32 ground screw where noted

Applications

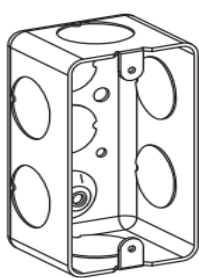

- Handy boxes, also referred to as utility boxes are used for switch boxes, convenience outlets or small junction boxes in exposed work applications
- Great for appliances and machinery
- Flexotek handy utility boxes have a small, rectangular design that enables power outlets and switches to be installed in small places
- Can easily be customized with special holes or knockouts for OEM applications

Standard Material

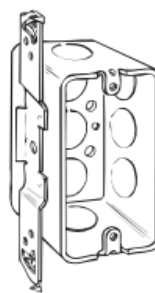

- Galvanized steel

4" Octagon Concrete Rings & Covers

Features

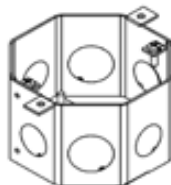

- Available with 1/2" and 3/4" KO
- Available in multiple depths
- Mounting tabs allow for quick and easy installation
- Sealed KOs prevent wet concrete and water from entering the box

Applications

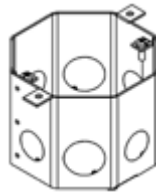

- Octagon concrete boxes with 1/2" & 3/4" side knockouts are used in poured concrete construction.
- Install on wooden or steel concrete forms once the forms are removed the boxes and conduit are buried in concrete and the end is open to the room wall or ceiling, ready for wire pulling
- Includes extra-long external mounting tabs allow an easy installation by nailing or screwing the boxes to wooden or steel concrete forms
- Knockouts are sealed against box surface to prevent wet concrete and water from entering the box. The top covers are removable allowing any before-pour work

Masonry Boxes with Flat Bracket

2-1/2" Deep

Features

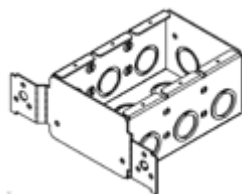

- 2- 1/2" deep
- Welded
- Available with 1/2" & 3/4" concentric KO's with FL bracket
- Available in 3 thru 4 gang

Applications

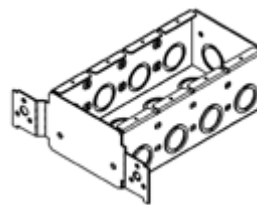

- Use when more than two devices or outlets are required in one box
- Multi-gang switch boxes can be installed in walls or ceilings for lighting fixtures, switches, receptacles or other outlet devices
- Use to bring power to a number of electrical devices where multiple conductor runs are split in two or more directions

Standard Material

- Galvanized steel

4" Square Single Gang Device Rings & Covers

LISTED

E530651

Features

- Ideal for exposed work applications, providing an easy method for the installation of electrical devices
- Can be used on any 4" square box

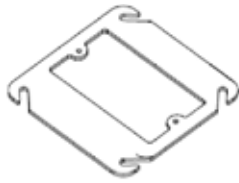

Applications

- 4" single gang device rings are used with 4" square boxes to mount switches, receptacles and devices
- Angled slots on the covers compensate for up to 12° of box misalignment on upright framing members
- 4" square blank flat covers are used to cover 4" square box wiring and provide a means for access when future conduit runs are required

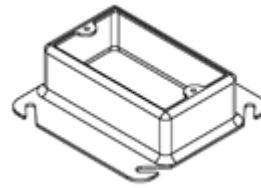

Standard Material

- Galvanized steel

4" Square to Round Device Rings

Features

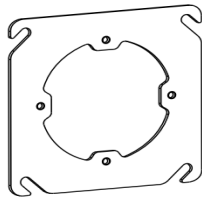

- 4" square to round 1/2"- 2" raised device rings are used to mount light fixtures in walls and ceilings
- They convert a square box to a round ceiling or wall opening with 8-32 threaded mounting tabs 2.75" c.c.

Applications

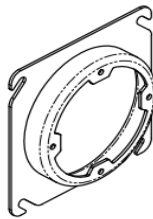

- Use to mount ceiling lights or wall scone lights
- The angled slots on the covers compensate for up to 12° of box misalignment on upright framing members

4" Industrial Covers

Features

- Includes hardware for mounting receptacles
- Available in various cover designs
- Crushed corners
- Raised 5/8"
- 6.6 cubic inch

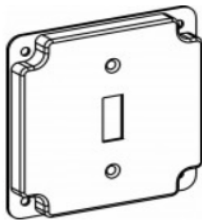

Applications

- 4" square industrial surface covers allow for a quick installation of electrical devices to steel covers before they are mounted to the box
- Raised 5/8" to protect wires inside the box for switches, receptacles, and outlets

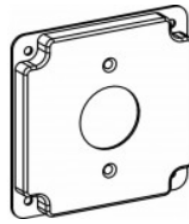

Standard Material

- Galvanized steel
